

WEBCASTING

GO VIRTUAL WITH LSAV'S WEBCASTING SUITE

Give your attendees a unique experience and gain a virtual audience when you blend live and Web elements into your next event through LSAV's Webcasting Suite. LSAV's turnkey solutions dynamically broadcast your live event and content through various live streaming, conference recording, and video on-demand options. LSAV organizes all of the pre-event technology, custom video player design, on-site event execution, as well as post-show production, editing, and data management.

WEBCASTING & LIVE STREAMING

- On-site video and camera services
- Event registration page creation and password-protected access privileges
- Q&As, polls, surveys, & social media integration
- Custom design options for your brand
- Secure cloud-hosted streaming
- Content syndication across multiple websites
- Advertising & sponsorship revenue packages
- Post-event metrics reporting and solutions

CONFERENCE RECORDING

- High-quality video recordings of event content for archiving or on-demand
- Perfectly synchronized PowerPoint presentations
- LSAV one-on-one support
- Recordings viewed as a single video stream on any device or tablet

VIDEO ON-DEMAND

- Complete set up, administration, and scalability by LSAV
- Secure cloud-hosted on-demand options
- Optimized for mobile streaming
- Content syndication & rebroadcasting
- Advertising & sponsorship revenue packages
- Post-event metrics reporting and solutions

LSAV's Webcasting, live streaming, and conference recording services are the perfect tools to increase your reach!

NEED A SERVICE YOU DON'T SEE? JUST ASK. LSAV CAN DO IT ALL FOR YOU.
